EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elwood Haynes on December 8, 2004.

The application has been amended as follows:

Claims 10-22, 25-27 and 30-32 have been cancelled.

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Formal drawings need to be submitted. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

Claims 1-2, 4-9, 23-24 and 28-29 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1, 6, 23, 24, 28, 29 are allowable because the prior art does not teach or fairly suggest a process or apparatus that measures trace quantities of an anion in the presence of an

excess of another anion in a liquid sample that comprises loading a liquid sample onto a concentrator or a sample loop through a first direction; reversing the direction of the flow through the sample loop or the concentrator to form an eluent stream; flowing the eluent stream through a mass spectrometer for detecting the anion of interest; wherein the liquid sample is a strong acid, or salts of strong acids and the method or apparatus does not include ion exclusion. All depending claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
